Comments:

The presenters did a great job making the material accessible/understandable
Needed more time!

I appreciate opening the session to conversation and questions

Very informative, thanks

Very interesting and stimulating discussion – still a lot of gray area but glad we’re working on it together

Great job, very informative!

Excellent job Noah and Sarah. Very impressive with your responses to the audience’s questions – you both did a great job in articulating the peer services through the CCBHC model

It is always good to better understand how peer services fit in the continuum of care for clients

Noah and Sarah were great and they were highly thorough in the subject at hand – thank you

Informative slides, great interaction, positive verbal and non-verbal communication

Thank you very much for the useful classifications

I love that Noah said you must build a relationship with your co-workers – there tends to be division

Great! Informative!

Many great questions were asked by the participants - answered in great detail - clear understanding by the speakers

Excellent presentation – questions answered to understanding

Continuing to understand the peer support job and clarity of CCBHC was done well

Sarah should work on making eye contact with people instead of looking at the ceiling while speaking – it will help the audience connect better with what she is saying – she got a little better as time went on

Enjoyed to see the bridge is starting to be built, now get bridge between state level and community level to improve

Still a muddled area
