Comments:

More focused solely on accounting/financial side with little focus on potential clinical or practical application

Excellent presentation

Knowledgeable but how does it work? What roles are changed with this process? Beside time saving, what are benefits?

No handouts. Quiet spoken, needed to speak a little louder – Great info and hope this can help my Center soon

Good information a lot of Centers may be interested. Did not realize it was a presentation for financial data – my guess is most people in the room were looking for info about non-financial data outcomes, metrics, etc. I think the presenters were surprised about number of participants too – mostly financial staff. Good to hear toward end about the bigger picture

The most innovative idea to aid fiscal reporting that I've seen in 15 years. The time and costs savings in having 39 Centers would benefit all. I wish we had done this with our EAR, GL and HR systems for all 39 Centers using the same systems
