Great session!

Wonderful – we need more IDD focus at this conference – Thank you

Excellent presentation! Food for thought

Very good – great work

It's not what I thought it was going to be – I thought it was going to be about variety of different ways of transitions from high school not just one program that was developed even though it seems to be just one

Really enjoyed – great ideas with practical tips

It was very informative a great resource for the community – Very educational if you're wanting to start a similar journey – loved the divine intervention – would like to know if anything is available for younger children

Enjoyed listening to the impact that this program has on these young people with IDD

This program is remarkable and breaking barriers for youth with these IDD challenges

Slides could not be read (too small font) – provided many insights – there is much work to be done in this area Thanks

Great! Presenters were perfect! Loved the subject on naming those 18 and above on autism spectrum to get a job

Great information

Not really what was described in the book – Lot of really unnecessary information in the presentation

Well done – thank you for your time

I love this concept, the passion of the interns and Beth and Katherine! Love, love, love this!!
