Please describe how your knowledge has changed regarding the objectives listed.	OBI can serve with suspected IDD (unconfirmed)
	aware of this program and making me think about ways to incorporate it.
	New information
	I've not heard of OBI, this was very informative

## Outpatient Biopsychosocial Interventions (OBI): A New Approach to Meet the Mental Health Needs of People with IDD

	OBI sounds like a great program. They actually provide services and not just TCM.
	Fuller understanding of OBI process
	Preparing for the potential opportunity to implement an OBI site.
	Understanding a different approach to serving MI and IDD clients
	Focus on whole person
	Will pursue an OBI program.
	Different structure
	Different structures
	Interested in when OBI will be expanding to other places
	better
	Learned more about OBI
	interesting subject
	Knowledgeable speakers on program that is getting additional funding. Great choice.
	Better understanding of the qualifications for OBI and the intersection with MH
	It was helpful to hear from all of the different programs to learn how OBI can operate at different LIDDAs

<b>As a result of attending this activity, what new skill or idea will you implement into your job or practice within the next six months?</b>	Nothing specific
	OBI and it's framework.
	OBI program further research
	I will inform my leadership team of the program
	Look into applying for an OBI program.
	Improve assessment process
	Preparing for the potential opportunity to implement an OBI site.
	Exploring OBI for my center
	More collaboration
	Structural
	Structural procedures
	Possibly bill Medicaid for skills Training
	not sure
	Want to see expansion of OBI
	Better understanding of who to refer to the OBI program
	Additional things my Center can do to support people with dual DX

<b>What topics would you like to see presented at future activities?</b>	Unsure
	breakdown of OBI
	Not sure
	Love the IDD focused content
	OBI in Dallas County
	Ethics
	Dual DX
	more on residential crisis placement
	OBI outcomes
	Not sure

## Outpatient Biopsychosocial Interventions (OBI): A New Approach to Meet the Mental Health Needs of People with IDD

<b>Comments (Optional)</b>	Protect the framework of person centered care. Do not let EBPs become the framework. EBPs are only impactful in real life inside the context of a person centered therapeutic relationship.
	Protect the framework of person centered care which is about relationships and connection. EBPs are tools. Don't let the state try and make the tools your framework.
