Rate the presenter's competence and effectiveness: Ashley Jones	5.00	16	0	0	0	0

Please describe how your knowledge has changed regarding the objectives listed.	Provided different ideas to provide support to our local unhoused population
	Housing info
	It was really informative to see what you can do with a lot of money and resources
	there's is hope
	Funding for housing
	I had known in our LMHA of a program that helps people who are experiencing homeless get contacted to housing but not to the extent that was discussed. I hope it can be considered in the future, as this would help many people in our community.
	This is such a huge topic for us to continue to talk about!
	Great job!!
	Excited to see some new pathways for better incorporating housing into our LMHA.
	Knowing that LMHA's have so many options to navigate housing for individuals with mental/behavioral health concerns! I wish NTBHA owned properties to house people

As a result of attending this activity, what new skill or idea will you implement into your job or practice within the next six months?	Coordination of state funding for the development of new projects and coordination with county.
	Honestly it was a little discouraging because out communities don't have the resources Austin does, so while it was great information it's going to have to look very different because our Cities don't have the infrastructure or financial resources.
	create a communication team for patients
	Look into more resources for clients concerning housing assistance.
	Ensuring we are accessing the various multitudes of homeless initiative programs
	Great job!
	I was trained on 8-11, section 8, PSH, and Rapid rehousing but it just never occurred to me what options I am unaware of but I have asked my CAO about NTBHA's housing department being able to educate on additional resources for housing

What topics would you like to see presented at future activities?	Any
	Maybe have a person in the program come and speak so we can understand what helped them the most.
	Unsure
	Great job!
	I'd honestly like to just see more practical options for the people we serve. It was discouraging that while great information was presented, the reality in most cases are waitlists which is disheartening
