

Artificial Intelligence: A Cohort Review of the Current AI Landscape for CCBHCs

Respondents: 35

	Average	5 - Strongly Agree	4 - Somewhat Agree	3 - Neither Agree Nor Disagree	2 - Somewhat Disagree	1 - Strongly Disagree
Indicate your level of agreement with the following statement: Overall, this session met my educational needs.	4.83	31	3	0	1	0
Indicate your level of agreement with the following statement: There was enough time spent on the subject matter.	4.97	34	1	0	0	0
Indicate your level of agreement with the following statement: The speakers were informative and kept my attention.	4.91	33	1	1	0	0

	Average	5 - Excellent	4 - Very Good	3 - Good	2 - Fair	1 - Poor
Rate the extent to which the course met the learning objective: Name three AI applications marketed to CCBHCs and their primary purpose.	4.86	31	3	1	0	0
Rate the extent to which the course met the learning objective: Discuss two key factors to consider when contracting with an AI vendor.	4.91	32	3	0	0	0
Rate the extent to which the course met the learning objective: Identify one legal/regulatory consideration related to AI adoption.	4.86	31	3	1	0	0

Artificial Intelligence: A Cohort Review of the Current AI Landscape for CCBHCs

	Average	5 - Excellent	4 - Very Good	3 - Good	2 - Fair	1 - Poor
Rate the presenter's competence and effectiveness: Holly Borel	4.89	31	4	0	0	0
Rate the presenter's competence and effectiveness: Carin Shuford	4.86	31	3	1	0	0

Please describe how your knowledge has changed regarding the learning objectives listed.
Holly is amazing !
Very informative
75% very well presented
I have a much better understanding of the different vendors, their usage, and challenges faced during and after implementation.
I am now more familiar with important aspects of compliance and therapeutic practices related to AI.
Increased awareness of the use of AI platforms in community mental health.
Understand more about several products and good contracting tips
I now understand issues and considerations when negotiating with AI vendors.
Learned specifically what the different products do and don't do. Learned about the risks and how to protect your center when going into contracts.
I liked the discussion surrounding potential implications of implementation and not just the benefits.
pros and things to consider when choosing AI systems
Learned about the implantation of different AI tools for our LMHA. Excited to try to implement more.
This was the best and most useful presentation on AI. And also the most honest it increased my knowledge in the difference between the different platforms in which might fit better for our agency. It was great hearing it from centers and not a company that has their own biases and interest.
Very good
Great real life information!
Broadened knowledge of AI options within Behavioral health.
They presented so much that is reality in our world.
More awareness of particular products and outcomes of those products.
Great presentation! Love the honesty and clarity!
Good presentation about AI
Better understanding of the abilities, successes and challenges with implementation of AI tools/vendors
Integrating AI must be with caution and be aware of the company over promising
It met expectations
I greatly appreciated the Lessons Learned and Ethics portions of the presentation.
Understanding of different types of AI tools, and options out there.
More awareness of how AI can be applied to the work we do.
What to prepare for when going out for solicitation
Thank you
I received information on how other centers use AI and potential benefits as well as risks.
Being able to consider the staff that have to use the tools was not the first thought in my mind and now it is

Artificial Intelligence: A Cohort Review of the Current AI Landscape for CCBHCs

It was great to be able to look at the different providers.
Well done

As a result of attending this activity, what new skill or idea will you implement into your job or practice within the next six months?
Continue conversations about an AI vendor to implement and strategies for that implementation.
Will do more research on AI companies, policies and how best to implement AI in our LMHA.
Review how A.I. may augment existing practices
Will consider these items as we explore products
I am better prepared to vet and negotiate with AI vendors.
Investing time at looking into one product that can help with compliance of documentation.
Increased evaluation of AI use
AI procedures for agency
Will be advocating for more ways to utilize AI to improve efficiency.
I think we'll continue to look at options.
yes
Increased focus on AI in documentation
Nothing specific for this answer
Continue to grow my knowledge
Implementation process of AI.
Impacts of using AI
Try utilizing AI for SQL coding
Review potential AI operability within EPIC EHR
Use AI with a more creative approach
Will facilitate discussion with other leaders on the areas covered in the presentation.
Better understanding of what to look for and what to watch out for in acquiring an AI solution.
Review AI platforms
What to prepare for when going out for solicitation
Get more information
Review ability to implement AI
Difference In use for QMHP vs Licensed clinicians
We will be able to look at works best for Qs vs therapists.
Improving AI usage

What topics would you like to see presented at future activities?
More information about security and more QMHP feedback.
State use of A.I. to increase efficiencies and reduce manual data reporting.
Ongoing updates about ai due to the extreme growth
Example or template AI policy
Understanding Mental Health TAC guidelines. Examples from Centers on how they meet the more difficult criteria and stay up to date on changes.
AI and Crisis Services especially with involuntary individuals
Unsure. Maybe more on advances of AI.
I'd like to see further education on how information hitting a server does not capture data and save your session. I feel this is a huge privacy issue and security issue to my understanding. It is saved until the notes completed.
Child focused

Artificial Intelligence: A Cohort Review of the Current AI Landscape for CCBHCs

Examples.
Home grown AI solution
Bring many more AI Vendors and have some present their products and outcomes
AI used with direct client care
Workforce feedback on training regarding AI and clinician skills.
More examples of using Azi on a practical application.
Ethics
More ai
AI
Further data
I think this was a helpful presentations. Thank you to the presenters.
Updated info

Other Comments (Optional)
Great session!
Great job!
Wonderful!
Slideshow could have had a better design, not just bullet points
Excellent Session!
Great
