Rate the presenter's competence and effectiveness: Kyle Blidy	4.83	19	4	0	0	0
Rate the presenter's competence and effectiveness: Erin Kaszynski	4.70	17	5	1	0	0

Please describe how your knowledge has changed regarding the learning objectives listed.
researchers methods
Very interesting on how to set up IRB
Research grants is an interesting topic for an lmha
Possibility of utilizing research in our agency.
It was interesting to hear how the agency is adding to research from the population they serve. I had not expected this.
Good presentation
Excellent data
Gained information to take back to our Center
great session
I better understand IRBs
Great
Utilizing current knowledge of mental illness to help try and gain a platform to help the next generation.
Learned more about IRB functioning
I learned a great deal at this presentation, and I found it genuinely fascinating. The well-made point about the problematic nature of applying academic research findings in real-life scenarios will stay with me and change my interpretation and decision making.
Great
I learned that this is an option for Centers, I had no idea people were doing this before.
Very good
seek out grants
I now know we can stand up a research department within our organization.

As a result of attending this activity, what new skill or idea will you implement into your job or practice within the next six months?
review
Will look at how this can be beneficial for the agency I am employed with
Will consider research within the agency
Not sure we could implement in 6 months
TICOMETER

Data-Driven Care: Integrating Research to Enhance CCBHC Care and Sustainability

I will look for additional research activities in our area.
Good information
Very useful information for how to move forward with planning research and grants
I'll take the information back to our Center's CCBHC staff
none
We will consider how research studies might fit into our T-CCBHC
Great
Add to my intake
Look at how our ERS collects data.
I do not see us getting approval to add research as a function of our CCBHC, but I will be reviewing and interpreting others' research differently.
Look into linking with universities so they can recruit clients from our Center.
Helping to move the needle forward
adjust training
We aren't able to do this at my center, but I at least will keep this in mind. I'll be looking more into analyzing our existing data to make decisions.

What topics would you like to see presented at future activities?
none
Session more geared towards CCBHC data. This session covered research but no data related to ccbhc
It would be nice to see some of the intervention tools used or created.
None
Ethics
none
Not sure
Great
Easiest ways to collect data for outcome requirements
The most important criteria for presentations at this and other conferences are innovative, novel approaches that solve issues in our field. Hearing from centers who are applying ideas from other service areas to BH is especially interesting and beneficial.
