Manager of Financial Planning and Analysis

Job Description

The Manager of Financial Planning & Analysis supports the organization in the areas of budgeting and financial reporting. This onsite, hands-on leadership role advises all divisions and departments to optimize financial resources, monitors revenue and expenses, and implements cost-saving initiatives. The role includes routine data management and the ability to provide actionable insights beyond the numbers. Preparation of journal entries and financial schedules is required. The incumbent will routinely employ project management skills, poise under pressure, and the ability to drive timely completion of deliverables. Extended hours may be required to meet tight deadlines for budget, financial reporting, and regulatory compliance. Supervision of onsite and/or remote employees is required.
